Part C—Statement with respect to required particulars

Part D—Certificate with respect to prescribed inquiries by registered agent

Schedule

## Preliminary

### To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

### Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

*If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.*

*If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.*

*\* means strike out or omit the option that is not applicable.*

*All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).*

*If there is insufficient space to provide any particulars required, continue on attachments.*

## Part B—Purchaser's cooling-off rights and proceeding with the purchaser

To the purchaser:

**Right to cool-off** (section 5)

### 1—Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS—

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

### 2—Time for service

The cooling-off notice must be served—

- (a) if this form is served on you before the making of the contract—before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract—before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

### 3—Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

### 4—Methods of service

The cooling-off notice must be—

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:  
**22 BRAESIDE AVENUE SEACOMBE HEIGHTS SA 5047**  
 (being the vendor's last known address); or
- (c) transmitted by fax or email to the following fax number or email address:  
**EMAIL: [JOHNL@OCRE.COM.AU](mailto:JOHNL@OCRE.COM.AU)                      [NICKV@OCRE.COM.AU](mailto:NICKV@OCRE.COM.AU)**  
 (being a number or address provided to you by the vendor for the purpose of service of the notice); or
- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:  
**210 GREENHILL ROAD EASTWOOD SA 5063**  
 (being the agent's address for service under the *Land Agents Act 1994*)

**Note**—Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that—

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

### 5—Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than—

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

### Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage;
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract;
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Part C—Statement with respect to required particulars

## Schedule—Division 1—Particulars of mortgages, charges and prescribed encumbrances affecting the land

(section 7(1)(b))

### Note—

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless—

- (a) there is an attachment to this statement and—
  - (i) all the required particulars are contained in that attachment; and
  - (ii) the attachment is identified in column 2; and
  - (iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or
- (b) the mortgage, charge or prescribed encumbrance—
  - (i) is one of the following items in the table:
    - (A) under the heading 1. General—
      - 1.1 Mortgage of land
      - 1.4 Lease, agreement for lease, tenancy agreement or licence
      - 1.5 Caveat
      - 1.6 Lien or notice of a lien
    - (B) under the heading 36. Other charges—
      - 36.1 Charge of any kind affecting the land (not included in another item); and
  - (ii) is registered on the certificate of title to the land; and
  - (iii) is to be discharged or satisfied prior to or at settlement.

## Notices

---

Notices are printed under arrangement with organisations having some potential interest in the subject land. You should contact the identified party for further details.

### **Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)**

#### Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

#### Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment ( For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

#### ***Land Tax Act 1936 and Regulations thereunder***

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

#### ***Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations***

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

#### ***Landscape South Australia 2019***

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Does the council hold details of any development approvals relating to:

- a) commercial or industrial activity at the land; or
- b) a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

**No**

Description of the nature of the development(s) approved:

*Note—*

*The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.*

*A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.*

*It should be noted that—*

- the approval of development by a council does not necessarily mean that the development has taken place;*
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Kellie Parker, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

## DEVELOPMENT PLAN CONSENT

GRANTED

### Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

### Conditions of Consent:

- (1) The development shall be constructed and maintained in accordance with the plans and details submitted with and forming part of Development Application No.100/1302/2014 except when varied by the following conditions of consent.
- (2) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (3) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.
- (4) The external appearance, materials and finishes of the new structure/building shall match or complement those of the existing building, to the reasonable satisfaction of the Council.

## BUILDING RULES CONSENT

GRANTED

### Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

### NOTES:

#### General:

- (1) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (2) The proposed development may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008 prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking the development. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (3) Council requires at least one business days notice of the following stages of building work:-
  - a) prior to the placement of any concrete for footings or other structural purposes (Note - Where an engineer carries out an inspection, Council will also require a copy of the inspection certificate);
  - b) at the completion of wall and roof frames prior to the fixing of any internal linings; and
  - c) any other stage of work noted on the Mandatory Notification form attached herein.

- (4) On completion of building work, the Development Act 1993 requires the owner of the land on which the building work is carried out to provide to the relevant authority a signed Statement of Compliance by either a registered building work supervisor or private certifier declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 2008).
- (5) The owner is advised that, should a licensed builder or contractor be engaged to carry out building works \$12 000 or greater in value, the owner will be required to supply to the Council a Certificate of Builder's Indemnity Insurance prior to commencement of that work.

### Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council\*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

*\*(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website [www.marion.sa.gov.au](http://www.marion.sa.gov.au)).*

### Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

(1) The proposed development must:

- be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
- be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

## Conditions

1. The vergola is excluded from the building rules consent and shall form part of a future approval. BCA-P2.1
2. Provide manufacture's specifications and engineering calculations to Council for the selected balustrade system prior to installation. BCA-P2.1.1
3. Provide manufacturers specifications and engineering calculations to Council for the selected stairway system prior to installation. BCA-P2.1.1
4. The building shall be connected to the public sewer where available; or sewage or sullage discharged from the building shall be collected, treated and disposed of by means of a waste control system which complies with the requirements of the *Public and Environmental Health Act 1987* and which is installed in a manner approved by the council. Reg 77
5. Surface stormwater run off shall be directed away from the building and neighbouring properties and towards the street water table. BCA-P2.1

## Notes:

Pursuant to Section 93(b) and Regulation 92 of the Development Act two copies of the plans, drawings, specifications and other documents and information lodged by the applicant, stamped or otherwise endorsed with the private certifier's consent and the Decision Notification Form have been forwarded to the relevant authority (Council). Pursuant to Regulation 46 if it appears to a relevant authority that all of the consents necessary for the approval of a particular development have been obtained under Division 1 of Part 4 of the Act, and that no such consent has lapsed and that all such consents are consistent with each other, the relevant authority must, subject to the Act and any other Act or law, forthwith (and in any event within five business days after receiving the last consent) issue a notice of approval. The applicant is advised that building work cannot commence unless or until the development is approved under the Act.

Proprietary type materials and products are to be selected and installed in accordance with the manufacturer's recommendations and relevant standards.

The proprietary roof truss design software shall be the subject of an independent technical expert certificate in accordance with Regulations 85 and 88 certifying that it complies with the provisions of BCA-P2.1. Where a truss falls outside the scope of the certified software the truss shall be separately certified pursuant to Regulation 88.

The Workplace Services Hazard Alert, July 2002, recommends that regular inspection of the roof trusses, particularly at high load areas such as girder trusses, be conducted by a suitably qualified person.

The roof trusses shall be erected, installed and braced in accordance with AS4440, the manufacturer's specifications and good trade practice.

Adequate roof truss chord restraints shall be provided at the maximum centres nominated in the truss calculations. Where purlins / battens are used to provide chord restraint and the purlin/ batten is discontinuous and joined at a truss chord additional restraint in the form of blocking or similar shall be provided to adequately restrain the truss chord.

Pursuant to section 67(1)(a) of the Act, a **certificate of occupancy is not required** in respect of a Class 1a or 10 building under the Building Code. A person must not occupy a Class 1a building under the Building Code (or an addition to a Class 1a building) that has not been fully completed in accordance with a development authorisation insofar as it relates to the performance of building work unless it complies with the requirements of Regulation 83A.

A copy of the completed **Statement of Compliance, Parts A & B** (attached to the applicant's copy of this consent) for the building work must be provided to Hendry Group within 10 business days after a notice of completion with respect to the building work is given.

- **Part A** of the statement must be signed by the licensed building work contractor responsible for carrying out the relevant building work or, if there is no such person, by a registered building work supervisor or a private certifier;
- **Part B** must be signed by the owner of the relevant land, or by someone acting on his or her behalf.

Where a building owner proposes to carry out building work of a prescribed nature described in Regulation 75 that is, in accordance with the regulations, to be treated for the purposes of Section 60 of the Development Act as building work that affects the stability of other land or premises (the affected land or premises), the following provisions apply:

- a) the building owner must, at least 28 days before the building work is commenced, cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work; and
- b) the building owner must take such precautions as may be prescribed to protect the affected land or premises and must, at the request of the owner of the affected land or premises, carry out such other building work in relation to that land or premises as that adjoining owner is authorised by the regulations to require.

This consent is issued on the basis that no building work contract for the building work had been entered into at the time of lodgement of the application for building rules consent. The owner of land on which domestic building work is to be performed must ensure that a copy of a certificate of insurance in relation to the work is lodged with the relevant authority on or before the giving of notice of commencement of the building work under regulation 74. Building work must not commence until a certificate of insurance in relation to that work has been lodged.

A reference to an Australian Standard in the documents is considered to be a reference to the relevant edition and amendments listed in Specification A1.3 of Volume 1, or Part 1.4 of Volume 2, of the Building Code of Australia (as amended from time to time), current at the date of the application for Building Rules Consent.

Pursuant to section 59 of the Development Act a licensed building work contractor who is carrying out the work or who is in charge of carrying out the work; or if there is no such licensed building work contractor, the building owner, must, in accordance with Regulation 74, notify the council of the commencement or completion of a prescribed stage of work (a mandatory notification stage).

The intent of a termite barrier system, constructed in accordance with the requirements of the BCA, is to ensure that termites will not enter a building by a concealed route. The installation of termite barriers will not stop termite activity from occurring on the site. In addition to the correct installation of a termite barrier, its effectiveness will rely on regular maintenance and competent inspection. A durable notice must be fixed to the building in a prominent location, such as in a meter box or the like, advising the building occupants that the system should be inspected and maintained and should indicate

- (i) the method of termite risk management; and
- (ii) the date of installation of the system; and
- (iii) where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label;
- (iv) the installer's or manufacturer's recommendations for the scope and frequency of future inspections for termite activity.

The requirements in the BCA are minimum requirements and owners of buildings may choose to incorporate additional termite management systems in their buildings.

Windows or glazing panels located over or adjacent to the bath/ or shower shall be safety glass in accordance with AS1288-2006.

Structural timber members that are in ground contact or that are not protected from weather exposure and associated moisture ingress shall be of durability Class 1 or 2 as appropriate (see AS1720.1 & 2), or shall be adequately treated with preservative in accordance with AS1604 and nails used in these joints shall be hot-dip galvanized, stainless steel or monel metal.

The BCA does not contain deemed to satisfy provisions for demolition works - the applicant should liaise separately with the relevant authority SafeWork SA a division of Department of Premier and Cabinet.

Set-off dimensions shall be from the allotment boundaries and not necessarily the fence lines.

The hot water supply system/ heated water service shall be designed and installed in accordance with the Waterworks Act 1932 and the Waterworks Regulations 1996. Wall and roof insulation, where specified, shall comply with AS/NZS4859.1.

Roof stormwater drainage including the box gutter, rainhead and overflow shall be constructed in accordance with AS/NZS3500.3. The hydraulic capacity of the overflow device shall be not less than the design flow of the associated gutter outlet.

The position and manner of discharge of the stormwater drainage system at the property boundary shall be to the satisfaction of the appropriate authority (council). The drainage system shall be completed by the finish of construction of the house in accordance with AS2870.

Wet area details shall comply with BCA-3.8.1.2 and AS3740. Waterproof membranes must comply with AS/NZS 4858 Wet Area Membranes.

Masonry articulation/ control joints shall be provided as specified in the Engineer's Footing Construction Report.

The assessment of the footing design is based on the minimum requirements of the BCA and AS2870. Additional advice should be sought from the engineer if the owner requires a higher level of footing performance.

The footing design does not cater the effects of trees on this or neighbouring sites. Further advice should be sought from the engineer if required.

The footing design considers the effects of the existing tree/s in its current state. The design does not cater for additional tree plantings, on this or neighbouring sites, or the significant increase in the size of the existing tree/s. Further advice should be sought from the engineer if required.

The prevention of relative movements between the existing building and the proposed addition due to foundation soil movements on this site are impractical to design for and can only be masked from view. Further advice should be sought from the engineer if required.

Footpaths leading to the building and to the building perimeter shall be graded to provide safe access or be provided with steps complying with BCA Part 3.9.

This assessment is for compliance with the requirements of the *Building Rules* as defined in the Development Act (and Regulations), 1993 and does not imply compliance with any other Act or Regulation.

### DEVELOPMENT PLAN CONSENT

Not required pursuant to Schedule 1A of the Development Regulations 2008.

### BUILDING RULES CONSENT

GRANTED

#### Conditions of Consent:

- (1) The swimming pool 'Isolation Barriers' shall be completed prior to the placement of water in the swimming pool.
- (2) Wastewater from backwash or draining shall be discharged to the sewer.

### NOTES:

#### General:

- (1) In undertaking the subject development the applicant should consider the retention of any existing trees and the replacement of any removed with suitable species in appropriate locations.
- (2) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (3) Council requires notification on completion of the swimming pool and pool safety barrier.

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

- (1) The proposed development must:
- be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
  - be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

### Conditions of Consent:

Please refer to the attached copy of your private Certifiers consent for Conditions of Consent. (If applicable).

## **NOTES:**

### General:

- (1) You are undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 1993, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (2) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.

### Advisory Notes:

- (1) The State Planning system is currently in the process of significant planning reforms. As of 1 July 2020 all Metropolitan Council's will be transferred to the Planning and Design Code under the Planning, Development and Infrastructure Act 2016. The Planning and Design Code will replace all current Development Plans. Therefore, some areas may see shifts in the principles governing development in their area.

Further details in relation to the Planning Reforms can be found at [https://www.saplanningportal.sa.gov.au/planning\\_reforms](https://www.saplanningportal.sa.gov.au/planning_reforms)

Should these timeframes not be achieved, your Approval may lapse and a new development application must be lodged, unless an extension is obtained. Should a request for extension be made after 1<sup>st</sup> July 2020, your request will be subject to the transitional provisions of the Planning, Development and Infrastructure Act 2016.

- (2) Please note that this Notice has been issued in accordance with Regulation 42(2) of the Development Regulations 2008, on the basis that the private certifier has issued a Certificate of Consistency in accordance with Division 2 clause 92(2)(e) of the Development Regulations 2008. In the event there is an inconsistency, or inconsistencies, Council advises that the plans granted Development Plan Consent take primacy as the approved plans/documents.

*Please be advised that in accordance with Regulation 42(4) and 42(5) the plans accompanying the Decision Notification Form have been stamped by the private certifier as the relevant authority.*

- (3) Developers are responsible for providing telecommunications infrastructure in their developments. To provide this infrastructure, you need to contract a carrier to install telecommunications infrastructure in your new development.

Developers can choose any carrier to service their development. If they don't choose another carrier:

- nbn is the Infrastructure Provider of Last Resort for larger developments (100 lots or more), and for all developments in areas where nbn is rolling out.
- Telstra is the Infrastructure Provider of Last Resort for smaller developments (less than 100 lots), until the nbn rolls out in the area.

Developers are asked to apply at least 6 months before the required date of service, to ensure a connection is ready when residents move in.

## **IMPORTANT INFORMATION** *(Last updated 2/6/05)*

**The following matters may influence any consent or approval that has been granted:**

- **Other Approvals may be required**

The granting of this consent or approval does not remove the need for the applicant to obtain all other consents that may be required by any other legislation or regulation, encumbrance, land management agreement or similar. It also does not imply that the building will comply with the provisions of the Disability Discrimination Act 1993. The Applicant's attention is particularly drawn to the need to consult electricity suppliers in relation to high voltage power lines and required clearance distances to buildings.

- **Public and Environmental Health**

The Public and Environmental Health Act requires that:

- proper sanitary facilities must be existing and available or be provided to all building sites (i.e. a water flush chemical toilet or toilet connected to sewer or a septic tank);
- an appropriate waste receptacle/enclosure be provided to contain all builders' waste; and
- the site is maintained in a clean condition, free of litter, at all times.

The applicant is advised (and should in turn advise the property owner, builders and all contractors) of their responsibility under the Environment Protection Act 1993 to not harm the environment. Specifically:

- paint, plaster, concrete and brick wastes, and wash waters should not be discharged to the stormwater system or onto land where it is reasonably likely to enter any waters;
- litter should be appropriately stored on site pending removal;
- excavation and site disturbance should be limited, and in particular dust generation should be minimised;
- entry/exit points to the site should be managed to prevent soil being carried off site by vehicles;
- sediment barriers should be used (particularly on sloping sites).

On the spot fines apply for breaches. Further information is available by contacting the EPA on 8204 2000.

- **Works on Council owned land, including footpaths**

The applicant is advised that any works undertaken on Council owned land (including, but not limited to, works relating to crossovers, driveways, footpaths, street trees and stormwater connections) will require the approval of the Council's Infrastructure Department, prior to any works being undertaken. Driveway Access Permit Forms, in particular, must be completed and approved prior to driveway construction occurring. Further information may be obtained by phoning 8375 6600.

Council has requirements for all works that occur in the verge area. In particular, Council requires all redundant driveways to be closed and all new driveways to grade toward the road between the kerb and the front boundary of the property with the level at the front property boundary being between 50mm and 150mm above the top of the kerb, or, as approved by Council.

If damage to kerbs, watertables, footpaths etc is present prior to construction commencing, it is advisable to supply Council with dated photos and measurements of defects; otherwise it will be assumed that all damage was caused during construction. Any damage during construction will be the responsibility of the builder/site owner to remedy. Failure to do so will result in such repairs being carried out by the Council and charged to the builder.

All works on Council owned land required as part of this development are likely to be at the applicant's cost.

Material stockpiles and temporary toilet facilities should all be placed on site and not on the footpath or public roads or reserves. Failure to keep the road reserve clean and suitable for pedestrian and vehicular traffic may result in Council or other agencies taking action under the Local Government Act, the Public and Environmental Health Act, and/or the Environment Protection Act.

- **Other**

Property owners are responsible for notifying Council of any **change in ownership** and/or any **change of property owner's mailing address**. This notification must be received in writing or by facsimile by Council's Rates Department (fax no: 8375 6888). Failure to do so may result in rates notices not being received and fines being imposed.

Existing vegetation to be retained and/or **planting** to occur **in the vicinity of building works** may alter soil conditions and/or affect buildings. The applicant is therefore urged to seek expert advice from suitably qualified persons before designing footings, undertaking construction, and/or planting any vegetation in the vicinity of any building.

The Council has not surveyed the subject land and has, for the purpose of its assessment, assumed that all dimensions and other details provided by the applicant are accurate. It is recommended that the applicant **employ a licensed surveyor** to carry out an identification survey and peg the true boundaries prior to construction commencing. Any discrepancies identified between the dimensions on the approved drawings and the true survey must be reported to the Council for advice on implications on the proposed development. Where a solid wall is proposed on a boundary, it is necessary for any relevant sections of fencing to be removed. It is advisable to gain permission from the adjoining owner(s) before moving or altering any fencing or before using a neighbour's property for access. Owners/applicants should also be aware of their obligations under the Fences Act to notify neighbours before carrying out fencing work on boundaries.

The EPA Information Brochure "Construction Noise" outlines recommended hours of operation outside which noisy activities should not occur. Further information is available by phoning the Environment Protection Authority on 8204 2000.

## Subzones

No

## Zoning overlays

### Overlays

#### **Airport Building Heights (Regulated) (All structures over 45 metres)**

The Airport Building Heights (Regulated) Overlay seeks to ensure building height does not pose a hazard to the operation and safety requirements of commercial and military airfields.

#### **Affordable Housing**

The Affordable Housing Overlay seeks to ensure the integration of a range of affordable dwelling types into residential and mixed use development.

#### **Prescribed Wells Area**

The Prescribed Wells Area Overlay seeks to ensure sustainable water use in prescribed wells areas.

#### **Regulated and Significant Tree**

The Regulated and Significant Tree Overlay seeks to mitigate the loss of regulated trees through appropriate development and redevelopment.

#### **Stormwater Management**

The Stormwater Management Overlay seeks to ensure new development incorporates water sensitive urban design techniques to capture and re-use stormwater.

## Urban Tree Canopy

The Urban Tree Canopy Overlay seeks to preserve and enhance urban tree canopy through the planting of new trees and retention of existing mature trees where practicable.

**PAYMENT REMITTANCE ADVICE**

**No payment is required on this Certificate**

**OFFICIAL: Sensitive**

**Please Note:**

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

## Buyers information notice

*Land and Business (Sale and Conveyancing) Act 1994 section 13A*

*Land and Business (Sale and Conveyancing) Regulations 2010 regulation 17*

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the website: [www.cbs.sa.gov.au](http://www.cbs.sa.gov.au)

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

### Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property eg sheds and fences?
- Does the property have any significant **defects** eg **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring, gas installation, plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

## Enjoyment

---

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

## Value

---

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (eg electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

For more information on these matters visit: [www.cbs.sa.gov.au](http://www.cbs.sa.gov.au)

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

**IMPORTANT NOTICE**  
**SMOKE ALARM LEGISLATION**

Legislation relating to smoke alarms came into force on the 1<sup>st</sup> day of February 1998.

- If the home you are purchasing was built on or after the 1<sup>st</sup> of January 1995, then it should already have an operational mains powered smoke alarm installed. If not, it is the responsibility of the vendor to install it prior to settlement at the vendor's cost.
- If the home was built prior to the 1<sup>st</sup> of January 1995, but purchased by the vendor on or after 1<sup>st</sup> February 1998, then it should already have either an operational mains powered smoke alarm installed, or one powered by 10 year life, non-replaceable, non-removeable permanently connected batteries. Again, it is the responsibility of the vendor to install such an alarm prior to settlement, and at the vendor's cost.
- In all other cases, the home you are buying must have at least, a battery operated smoke alarm which you are required to upgrade to mains power (or an alarm fitted with 10 year life, non-replaceable, non-removeable permanently connected batteries) within six months of the date of purchase. It is recommended that at least one smoke alarm be installed on each floor of a multi storey dwelling.

The smoke alarms must be installed by a licensed electrician and must comply with the Australian Standard. A maximum penalty of \$750.00 for a breach of the legislation applies.

Besides this penalty, there is also a risk that damage caused by fire to a dwelling, which does not have a smoke alarm installed as required under the legislation, may not be covered by insurance.
