

Resort style living in a prime river front location

4 🏠 2 🗑️ 4 🚗

Opportunity to buy a home of such function and style in one of Highton's most sought-after river front positions is rare. Set on a huge 1491m² block with incredible landscaped surrounds, including a huge flat lawned area for kids to play, a stunning resort style pool and fantastic views over the Barwon River, this incredible multi-level architectural home is the perfect family abode.

Stunning features such as slatted timber raked ceilings, slate flooring, a beautiful French country kitchen and fully renovated bathrooms with exquisite finish are but a few of the fine features throughout the home. Outside boasts a huge entertaining deck which features low maintenance engineered decking, an undercover section for all weather dining and given its elevated position is privy to the most breathtaking views over the Barwon River and the pool. There is also a separate entertaining area with a hot spa. Both private and protected this home is ideal for your family and to entertain.
