

## Edgy industrial style home that will leave you breathless

5 🏠 2 🚗 3 🚗

No money has been spared on the build of this incredible home. A custom double storey design built by True design homes, this executive residence features 4 large bedrooms plus a study (or 5th bedroom), 3 living areas and a stunning solar heated inground pool. This home is not only the epitome of style it provides for the ultimate in luxury living, and has been designed in a way to maintain a terrific sized backyard with a huge uninterrupted lawn area for the kids to play.

Attention to detail and quality is reflected throughout the entire home including a combination of beautiful wormy chestnut flooring, polished concrete floors, stone benchtops to all wet areas, spotted gum balcony and retainers, square edge corning, feature lighting, premium window shutters and blinds, hydronic heating and double glazed windows, this home is finished to a standard rarely seen in the market. There is also a huge 3 car garage with workshop space, including a tiled 'mud room' to allow for workshop tools and attire to be housed outside, perfect for the man of the house.
