Part A—Parties and land

Part B—Purchaser's cooling off rights and proceeding with the purchase

Part C—Statement with respect to required particulars

Part D—Certificate with respect to prescribed inquiries by registered agent

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

** means strike out or omit the option that is not applicable.*

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Part A—Parties and land

- 1 Purchaser:
Address:
- 2 Purchaser's registered agent: **NOT APPLICABLE**
Address:
- 3 Vendor: **DARREN KEITH RATHBAND AND ANGELA CLAIRE STEPHENSON**
Address: **49 PETERS TERRACE MOUNT COMPASS SA 5210**
- 4 Vendor's registered agent: **Ouwens Casserly Real Estate Pty. Ltd.**
Address: **210 Greenhill Road Eastwood SA 5063**
- 5 Date of contract (if made before this statement is served): / /20

Part B—Purchaser's cooling-off rights and proceeding with the purchaser

To the purchaser:

Right to cool-off (section 5)

1—Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS—

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2—Time for service

The cooling-off notice must be served—

- (a) if this form is served on you before the making of the contract—before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract—before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3—Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4—Methods of service

The cooling-off notice must be—

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:
49 PETERS TERRACE MOUNT COMPASS SA 5210
(being the vendor's last known address); or
- (c) transmitted by fax or email to the following fax number or email address:
EMAIL: BONNIES@OCRE.COM.AU
(being a number or address provided to you by the vendor for the purpose of service of the notice); or
- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:
210 GREENHILL ROAD EASTWOOD SA 5063
(being the agent's address for service under the *Land Agents Act 1994*)

Note—Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that—

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5—Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than—

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage;
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract;
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Part C—Statement with respect to required particulars

Schedule—Division 1—Particulars of mortgages, charges and prescribed encumbrances affecting the land

(section 7(1)(b))

Note—

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless—

- (a) there is an attachment to this statement and—
 - (i) all the required particulars are contained in that attachment; and
 - (ii) the attachment is identified in column 2; and
 - (iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or
- (b) the mortgage, charge or prescribed encumbrance—
 - (i) is one of the following items in the table:
 - (A) under the heading 1. General—
 - 1.1 Mortgage of land
 - 1.4 Lease, agreement for lease, tenancy agreement or licence
 - 1.5 Caveat
 - 1.6 Lien or notice of a lien
 - (B) under the heading 36. Other charges—
 - 36.1 Charge of any kind affecting the land (not included in another item); and
 - (ii) is registered on the certificate of title to the land; and
 - (iii) is to be discharged or satisfied prior to or at settlement.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Particulars of Building Indemnity Insurance

Note: Building Indemnity Insurance is required for -

- (a) Domestic building work for which approval under the Planning, Development and Infrastructure Act 2016, the repealed Development Act 1993 or the repealed Building Act 1971 is or was not required; or
- (b) Minor domestic building work (see Section 3 of the Building Work Contractors Act 1995); or
- (c) Domestic building work commenced before 1 May 1987; or
- (d) Building work in respect of which an exemption from the application of Division 3 of Part 5 of the Building Work Contractors Act 1995 applies under the Building Work Contractors Regulations 2011; or
- (e) Building work in respect of which an exemption from the application of Division 3 of Part 5 of the Building Work Contractors Act 1995 has been granted under Section 45 of that Act.

Details of Building Indemnity Insurance still in existence for Building Work on the Land

Building indemnity insurance required	No
---------------------------------------	----

If yes:

Name(s) of person(s) insured	
Name of insurer:	

Limitations of the liability of the insurer:	
Name of the builder:	
Builder's Licence Number:	
Date of Issue of insurance:	
Description of insured building work:	

Exemption from holding insurance

If particulars of insurance are not given, has an exemption been granted under Section 45 of the Building Work Contractors Act 1995 from the requirement to hold an insurance policy in accordance with Division 3 of Part 5 of that Act?	No
---	----

If yes:

Date of exemption:	
Name of builder granted the exemption:	
Licence Number of the builder granted the exemption:	
Details of building work for which the exemption applies:	
Details of conditions (if any) to which the exemption is subject:	

Particulars relating to Environment Protection

6 Further information held by councils – Does the council hold details of any development approvals relating to: (a) Commercial or industrial activity at the land; or (b) A change in the use of the land or part of the land (within the meaning of the Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?	No
---	----

Note -

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that –

- (a) the approval of development by a council does not necessarily mean that the development has taken place;
- (b) the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

I certify that to the best of my knowledge and belief the information provided above is correct.

within 12 months of the date of this Decision Notification (or alternatively the date of the determination of any appeal) unless this period has been extended by the relevant authority.

And

Any act or work authorised or required by this Decision Notification must be substantially or fully completed within 3 years of the date of this Notification or a longer time as allowed by the relevant authority.

You will require a fresh Development Approval before commencing or continuing the development if you are unable to satisfy these requirements.

DECISION NOTIFICATION - CONDITIONS OF APPROVAL

APPLICANT NAME: BRENTON IRVING

CONDITIONS OF DEVELOPMENT PLAN CONSENT: - 4

1. The development here in approved shall be undertaken and maintained in accordance with the stamped approved plans, drawings, specifications and other documents submitted to the Council, except where varied by the following conditions.

Reason: To ensure the development is undertaken in accordance with the approved plans, drawings, specifications and other documents submitted.

2. The external appearance, materials and finishes of the new structure/building must match, compliment or blend with the principal building as near as practical and be of a non reflective finish.

Reason: To maintain and enhance the visual amenity of the locality in which the subject land is situated.

3. All storm water drainage shall discharge so that it does not flow or discharge onto land of adjoining owners or, in the opinion of Council, detrimentally affect structures on this site or any adjoining land.

Reason: To ensure storm water is disposed of in a controlled manner.

4. That effective measures be implemented during the construction of the development and on-going use of the land in accordance with this consent to:

- prevent silt run-off from the land to adjoining properties, roads and drains;
- control dust arising from the construction and other activities, so as not to, in the opinion of Council, be a nuisance to residents or occupiers on adjacent or nearby land;
- ensure that soil or mud is not transferred onto the adjacent roadways by vehicles leaving the site;
- ensure that all litter and building waste is contained on the subject site in a suitable bin or enclosure; or
- ensure that no sound is emitted from any device, plant or equipment or from any source or activity to become an unreasonable nuisance, in the opinion of Council, to the occupiers of adjacent land.

Reason: To minimise potential adverse off site environmental impacts.

NOTES:

1. Allotment boundaries will not be certified by Council staff. The onus of ensuring that the building is sited in the approved position on the current allotment is the responsibility of the owner. This may necessitate a survey being carried out by a licensed land surveyor.
2. External sides of the structure cannot be clad without prior consent from Council. Boundary walls will require fire rating.
3. Encumbrances, although not administered by Council, may apply to your property. You are therefore advised to check for Encumbrances on your Certificate of Title prior to commencing work.
4. The building/structure must be located at least 2.5 metres from any septic tank and 3 metres from associated soakage trench infrastructure.

Please contact the Planning Officer if you have any enquiries in relation to the above Condition(s) of Development Plan Consent.

CONDITIONS OF BUILDING RULES CONSENT: - Nil

BUILDING CLASSIFICATION: 10A Non-Habitable Building

PLEASE NOTE:

If this development has not lawfully commenced with substantial work undertaken on site within 12 months of the date of this approval, this application along with all related consents/approvals will lapse in accordance with Regulation 48 (1) of the Development Regulations 2008. Where this occurs you will be required to obtain a new Development Approval before commencing or continuing the development.

Unless otherwise stated within this approval the attached consent is limited to works within the boundaries of the allotment. Any works external to the allotment boundaries including but not limited to, driveway crossovers and/or tree removals or proposed tree relocations require a separate permit under the Local Government Act 1999. Please contact Council's Engineering Department on 8555 7000 for further information regarding a permit.

DECISION NOTIFICATION – CONDITIONS OF APPROVAL

APPLICANT NAME: BASIC STEEL SUPPLIES

CONDITIONS OF DEVELOPMENT PLAN CONSENT: - 4

1. The development here in approved shall be undertaken and maintained in accordance with the stamped approved plans, drawings, specifications and other documents submitted to the Council, except where varied by the following conditions.

Reason: To ensure the development is undertaken in accordance with the approved plans, drawings, specifications and other documents submitted.

2. The external finishes to the building or structure herein approved shall be in accordance with the materials as specified in the application now approved.

Reason: To maintain and enhance the visual amenity of the locality in which the subject land is situated.

3. Where cut and/or fill in excess of 300mm is required as a result of the proposed development, retaining walls or other suitable soil retention devices shall be employed.

Reason: To ensure that excavations and filled land is stable and will not result in any adverse impact on adjoining properties.

4. All storm water drainage shall discharge so that it does not flow or discharge onto land of adjoining owners or, in the opinion of Council, detrimentally affect structures on this site or any adjoining land.

Reason: To ensure storm water is disposed of in a controlled manner.

NOTES:

1. A wall retaining a difference in ground levels of more than 1 metre requires Development Approval.
2. External sides of the structure cannot be clad without prior consent from Council. Boundary walls will require fire rating.
3. Allotment boundaries will not be certified by Council staff. The onus of ensuring that the building is sited in the approved position on the current allotment is the responsibility of the owner. This may necessitate a survey being carried out by a licensed land surveyor.
4. Encumbrances, although not administered by Council, may apply to your property. You are therefore advised to check for Encumbrances on your Certificate of Title prior to commencing work.
5. The applicant is advised to contact the individual service providers regarding the location of street lighting, electricity supply and storm water drainage pits. It is the responsibility of the applicant/owner to ensure that the location of the vehicle crossover and driveway does not conflict with the services. Should the need arise to relocate any infrastructure or services all costs and charges associated with the works shall be at the applicant/owners expense.

Please contact the Planning Officer if you have any enquiries in relation to the above Condition(s) of Development Plan Consent.

Dear Madam

WASTEWATER WORKS APPROVAL FOR: Lot 83 (49) Peters Terrace Mount Compass

I refer to your application for wastewater works approval at the above site.

I advise that, pursuant to the South Australian Public Health (Wastewater) Regulations 2013 (the Regulations) your application has been approved subject to the following conditions.

Please note that penalties can apply for non-compliance with approval conditions.

1. The approved wastewater works incorporates:
 - 1.1. Sanitary plumbing and drainage in compliance with AS/NZS 3500
 - 1.2. Connection to sewer. **See note 1.**
2. The system is to be installed, commissioned, operated and maintained in accordance with:
 - 2.1. The plans and specifications submitted including any amendments made/required with this approval
 - 2.2. Manufacturers, installers and equipment suppliers' instructions and recommendations
 - 2.3. In the case of any wastewater products to be installed, the relevant product approval conditions
 - 2.4. Australia/New Zealand Standard for Sanitary Plumbing and Drainage (AS/NZS 3500.2)
 - 2.5. The Onsite Wastewater Systems Code
 - 2.6. All other relevant standards and codes
 - 2.7. Conditions of this approval
3. In accordance with the Regulations, wastewater works must be carried out by a suitably qualified person. Additionally, the required signed Certificates of Compliance and "as constructed" drawings must be submitted to the relevant authority and the owner or occupier of the land on which the work was undertaken within 28 days.
4. In regards to inspection and commissioning;
 - 4.1. The relevant authority reserves the right to inspect during construction, or upon completion, or not to inspect the installation.

4.2. Persons undertaking wastewater works are required to give Council at least one business days notice at the following stages:

- a) Underfloor plumbing completed (with work under water test)
- b) Drains, other approved ancillary equipment and connection to sewer (drains to be under water test)
- c) Final inspection on completion of the whole system prior to occupation

Please contact the Planning and Development Customer Service Officer on (08) 8555 7000 to arrange for these inspections.

5. A durable notice is to be permanently located in a prominent position (such as a power box) on the property showing;

- 5.1. Type of system installed
- 5.2. Date of system installed
- 5.3. Servicing / desludging frequency
- 5.4. Prohibited discharges
- 5.5. Relevant Authority / Manufacturer details

6. The operator of the wastewater system must ensure that the lids and access openings are to be fitted so as to be childproof.

7. The operator of a wastewater system must ensure that the system is operated, maintained and serviced in accordance with :

- 7.1. The conditions of this approval
- 7.2. The prescribed codes to the extent which they are applicable.

8. The operator of a wastewater system must ensure that wastewater from the system is reused or disposed of in accordance with:

- 8.1. These approval conditions
- 8.2. All relevant standards and Codes to the extent which they are applicable.

9. Where installed, any pumps and rising mains required must be suitable for their intended loads and operating environment.

10. This approval will expire if the works are not commenced, or are commenced but not substantially completed within 24 months after the date of approval.

11. Pursuant to the Regulations, the relevant authority may, on its own initiative, by written notice to the operator of a wastewater system to which a wastewater works approval applies, vary or revoke a condition of the approval or impose a further condition, but in that case, the variation, revocation or imposition may not take effect until at least 6 months after the giving of the notice unless-

- 11.1. The operator consents or-
- 11.2. The relevant authority states in the notice that, in its opinion, the variation revocation or imposition is necessary in order to prevent or mitigate significant harm to public or environmental health or the risk of such harm.

Approved by:

A handwritten signature in blue ink, which appears to read "J. Boxall". The signature is written over a horizontal line.

Julia Boxall (Senior Environmental Health Officer) **Date:** 19 January 2017

Note 1: Before commencing work, the depth and location of the connection point must be checked.

Note 2: The approval does not abrogate responsibilities under other Acts or Regulations to obtain the necessary approvals, permits or licences from other agencies.

Note 3: Sludge from the system (where applicable) is to be taken away by an EPA licensed operator to an approved site in accordance with the SA Biosolids Guidelines.

Note 4: Any alterations/upgrades/modifications to this system will be subject to separate application(s) and approval from the relevant authority.

Alexandrina Council

Swimming Pool Safety

Requirements on Sale of Property

Pools approved, constructed or installed before 1 st July 1993:

Safety barriers must be brought into line with the requirements of Ministerial Building Standard – MBS 004 - Swimming Pool Safety – designated safety features for pools built before 1 July 1993

Pools approved, constructed or installed from 1 st July 1993 to the present:

Safety barriers must comply with the rules in place when the pool was approved.

- From 1 st July 1993 to 1 st December 2010 child resistant doorsets were permitted doors opening into a pool enclosure were required to be self-closing and self-latching with the latch at least 1500mm above the floor windows opening into a pool enclosure were required to be protected by a security screen or the opening width restricted to a maximum of 100mm
- From 2 nd December 2010 child resistant door sets were not permitted a fence was required between any doorway from the house and the pool windows opening into a pool enclosure were required to be protected by a security screen or the opening width restricted to a maximum of 100mm

Safety Fence Inspections

If you have a property for sale that has a swimming pool, it is your responsibility to ensure the pool safety barrier is compliant with Ministerial Building Standard-MBS 004 and the legislation at the time of approval. It is recommended that you should have the pool safety barrier checked by a consultant specializing in pool fencing well before the property transfer is settled. This will allow time to upgrade anything that is deficient or not complying before the settlement date.

Please Note: Alexandrina Council does not undertake such inspections.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring, gas installation, plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have, we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

IMPORTANT NOTICE
SMOKE ALARM LEGISLATION

Legislation relating to smoke alarms came into force on the 1st day of February 1998.

- If the home you are purchasing was built on or after the 1st of January 1995, then it should already have an operational mains powered smoke alarm installed. If not, it is the responsibility of the vendor to install it prior to settlement at the vendor's cost.
- If the home was built prior to the 1st of January 1995, but purchased by the vendor on or after 1st February 1998, then it should already have either an operational mains powered smoke alarm installed, or one powered by 10 year life, non-replaceable, non-removeable permanently connected batteries. Again, it is the responsibility of the vendor to install such an alarm prior to settlement, and at the vendor's cost.
- In all other cases, the home you are buying must have at least, a battery operated smoke alarm which you are required to upgrade to mains power (or an alarm fitted with 10 year life, non-replaceable, non-removeable permanently connected batteries) within six months of the date of purchase. It is recommended that at least one smoke alarm be installed on each floor of a multi storey dwelling.

The smoke alarms must be installed by a licensed electrician and must comply with the Australian Standard. A maximum penalty of \$750.00 for a breach of the legislation applies.

Besides this penalty, there is also a risk that damage caused by fire to a dwelling, which does not have a smoke alarm installed as required under the legislation, may not be covered by insurance.
