

IMPORTANT INFORMATION REGARDING SEARCHES

Form 1 On Frome
147 Frome St
ADELAIDE SA 5000

Attention Conveyancers

○ **Section 187 certificate update request free of charge (One Update):**

- Penalties and interest, property charges, payments or dishonoured payments can impact account balances on a daily basis.

To assist with financial adjustments as close as practicable to the date of settlement, your **Section 187 certificate will now be valid for 90 days**. Within this period Council will offer one update request without charge. This update is to be obtained via the online portal.

It is important to note all searches advise when fines/interest will be applied. When receiving your update search, should it be evident that further penalties will be applied prior to settlement, you will need to still consider these additional amounts as part of your settlement statement calculations.

Please Note: Section 7 certificates remain valid for a 30 day period only.

○ **BPAY biller code added to searches to enable electronic settlement of funds**

- Our BPAY biller code is now detailed on each search, enabling settlement funds to be disbursed to Council electronically. Please note that this is Council's preferred method payment and we request that you cease the use of cheques to affect settlement.

○ **How to advise Council of change of ownership?**

To also assist with the reduction of duplication of information being received from various agencies i.e. conveyancers and the Lands Titles Office, we are advocating that the **Purchaser's Conveyancer** to advise the change of ownership by following the below:

- If you are using e-conveyancing to affect a sale, please **only issue advice to Council if the mail service address is different to what was lodged via the transfer at the LTO**. Council's new practice is to update ownership details including the mailing address in accordance with the advice provided by the Valuer General. Council has amended this change to align with SA Water practices and to provide an improved customer experience overall.
- If lodging in person at Lands Title Office – Please send the change of ownership advice to Council via mail@onkaparinga.sa.gov.au. Electronic settlement of funds is still preferred.

Yours sincerely

Application Number	145/3313/1999
Description	Implement shed
Decision	Approved
Decision Date	22 November 1999

Development Plan Consent Conditions

1. All work shall be completed in accordance with the plans submitted with and forming part of the Development Application.
2. The garage shall be colour coated or painted a suitable low reflective colour within six months of erection.
3. As few trees and scrub as possible should be removed during construction ie. only those necessary to clear an access and the shed site

Application Number	145/3689/2001
Description	3 Storey Dwelling & Garage
Decision	Approved
Decision Date	15 February 2002

Development Plan Consent Conditions

1. All development shall be completed in accordance with the plan(s) and documents submitted with and forming part of the development application except where varied by the following condition(s).
2. All stormwater drainage shall discharge so that it does not flow or discharge onto land of adjoining owners or in the opinion of Council detrimentally affect structures on this site or any adjoining land.
3. That effective measures be implemented during the construction of the development and on-going use of the land in accordance with this consent to:
 - prevent silt run-off from the land to adjoining properties, roads and drains;
 - control dust arising from the construction and other activities, so as not to, in the opinion of Council, be a nuisance to residents or occupiers on adjacent land;
 - ensure that soil or mud is not transferred onto the adjacent roadways by vehicles leaving the site;
 - ensure that all litter and building waste is contained on the subject site in a suitable bin or enclosure; and
 - ensure that no sound is emitted from any device, plant or equipment or from any source or activity to become an unreasonable nuisance, in the opinion of Council, to the occupiers of adjacent land.

CFS Conditions of Approval

1. ACCESS

Private roads and access tracks shall provide safe and convenient access for fire-fighting vehicles as follows:

Develop and extend existing access roadways to provide:

Access to the building site shall be of all weather construction, with a minimum formed road surface width of 4 metres and must allow forward entry and exit for large fire-fighting vehicles.

All dead end roads shall be constructed to allow large fire-fighting vehicles to turn around with safety by use of either:

- A turn around area with a minimum formed road surface diameter of 25 metres **OR**
- A T or Y shaped turnaround area with minimum formed road surface leg lengths of 17 metres and a minimum inside road radii of 8.5 metres.

All road curves shall have a minimum inside road radii of 8.5 metres.

The gradient of the access road shall not exceed 16° (29%).

Solid crossings over watercourses shall be provided to withstand the weight of large fire appliances (GVW 14 tonnes).

2. VEGETATION

Landscaping shall include Bushfire protection features that will prevent or inhibit the spread of Bushfire and minimise the risk of damage to buildings and property as follows:

The number of existing trees within 20 metres of the building(s) shall be reduced by 50% so that leaf canopies of trees within this area are not continuous.

The number of existing shrubs/understorey plants within 20 metres of the building(s) shall be reduced by 50% so that the leaf area of shrubs within this area is not continuous.

All branches overhanging the roof should be removed or trimmed clear of the roof.

All trees within 20 metres of the building(s) shall be modified to provide a vertical fire break by removing branches within 20 metres of the ground surface.

Grasses within 20 metres of the dwelling or to the property boundaries, whichever comes first, should be reduced to a height of 10cm during the Fire Danger Season.

3. WATER SUPPLY

A supply of water independent of reticulated mains supply shall be available at all times for fire-fighting purposes.

A supply of 22,000 (twenty-two thousand) litres of water shall be available for fire-fighting purposes at all times.

This supply shall be fitted with a fuel driven pump or an equivalent system that operates independent of mains electricity and is capable of pressurising the water for fire-fighting purposes.

The pump and flexible connections to the water supply shall be protected from the impact of Bushfire by a suitably ventilated, non-flammable cover (metal or masonry material).

The fire-fighting water supply shall be clearly identified and fitted with an outlet of at least 50mm diameter terminating with a fire service 64mm male London round thread adaptor which shall be accessible to fire-fighting vehicles at all times.

All non metal fire-fighting water supply pipes other than flexible connections to fire-fighting pumps shall be buried at least 300mm below finished ground level.

A roof mounted sprinkler system should be installed to direct an even curtain of water over the roof area and downwards over walls and windows.

Hoses (minimum 19mm [³/₄] internal diameter) and metal, spray jet nozzles capable of withstanding the pressures of the supplied water and of sufficient length to reach all parts of the building should be readily accessible at all times.

A ground based sprinkler system using all metal type sprinkler head shall be located within 10 metres of the dwelling to provide an unbroken band of wet vegetation surrounding the buildings and to allow for over spray onto the buildings.

The diameter of all fittings and flexible reinforced suction hose connecting the water supply to the fuel driven pump shall be no smaller than the diameter of the pump inlet valve.

BUILDING REQUIREMENTS

The building shall incorporate the construction requirements for the building in Bushfire Prone Areas, in accordance with the Building Code of Australian Standard™ 3959-1999 (AS3959) Construction of buildings in bushfire prone areas.

*Compliance with the fire protection requirements is not a guarantee the dwelling will not burn, but provides a *refuge* from the approach, impact and passing of a bushfire.

4. Stormwater shall be diverted away from the building and shall not pond against or near the footings and shall not be discharged onto adjoining land. Where drainage is directed to the street water table, this shall be by way of a Council approved storm water drainage system.

5. Steps, handrails and balustrading to the building shall comply with Part 3.9 of the Building Code of Australia.
6. All external paving shall be a minimum of 75mm below the bottom course of the brickwork and shall be graded at a minimum of 50mm over the first 1000mm from the building.

Zoning overlays

Overlays

Character Preservation District (Not In Township)

The Character Preservation District Overlay seeks to recognise, protect and enhance the special character of Character Preservation Districts.

Hazards (Bushfire - High Risk) (High)

The Hazards (Bushfire - High Risk) Overlay seeks to ensure development responds to the high level of bushfire risk by siting and designing buildings to mitigate threat and impact of bushfires on life and property, facilitating access for emergency service vehicles and situating activities that increase the number of people living and working in the area away from areas of unacceptable bushfire risk.

Hazards (Flooding - Evidence Required)

The Hazards (Flooding - Evidence Required) Overlay adopts a precautionary approach to mitigate potential impacts of potential flood risk through appropriate siting and design of development.

Limited Land Division

The Limited Land Division Overlay seeks to limit fragmentation of land to avoid undermining primary production.

Murray-Darling Basin

The Murray-Darling Basin Overlay seeks to ensure sustainable water use in the Murray-Darling Basin area.

Native Vegetation

The Native Vegetation Overlay seeks to protect, retain and restore areas of native vegetation.

Prescribed Water Resources Area

The Prescribed Water Resources Area Overlay seeks to ensure the sustainable use of water in prescribed water resource areas.

River Murray Tributaries Protection Area

The River Murray Tributaries Protection Area Overlay seeks to ensure sustainable water use and conservation of riverine environments within the River Murray Tributaries Area.

Regulated and Significant Tree

The Regulated and Significant Tree Overlay seeks to mitigate the loss of regulated trees through appropriate development and redevelopment.

Water Resources

The Water Resources Overlay seeks to protect the quality of surface waters in South Australia.

AUSTRALIAN STANDARD & RELEVANT CODE REQUIREMENTS

That the installation of the septic tank system is carried out by a licensed person and is installed in accordance with:

the plans forming part of this application, as approved, including any notations thereon, and the details outlined in attachment/s, and the requirements of the Code of Practice issued by the SA Health Commission for the Installation & Operation of Septic Tanks in South Australia

That all sanitary plumbing and drainage work associated with the connection of the sanitary fixtures to the septic tank system are installed in accordance with the National Plumbing & Drainage Code AS/NZ 3500.2.2:1996.

That there is no septic tank effluent discharge or run-off from the premises on which the system is installed, onto any premises of which the owner of the system is not in possession or onto any public place.

That the use of the septic tank system does not vary from that indicated on the application for approval to install the system.

That the septic tank system be operated and maintained in accordance with the Standards for Installation & Operation of Septic Tank Systems.

The approval granted to install a septic tank system shall become void if:

the work is varied from the approved plan without first having gained Council approval, or the work is not commenced within 12 months after the day on which the approval was given.

The access openings to the septic tank shall be raised to the top of ground level using an approved shaft with a clear opening of at least 1100 x 700mm dia.

Further information held by council

Does the council hold details of any development approvals relating to: NO

- (a) commercial or industrial activity at the land; or
- (b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993*) or the *Planning, Development and Infrastructure Act 2016*?

Note –

The question relates to information that the council for the area in which the land is situated may hold. If the council answers “YES” to the question, it will provide a description of the nature of each development

approved in respect of the land. The purchaser may then obtain further details from council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A “YES” answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that –

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.
